### Lens Supplier System [Aqours66/Project-FYP \(github.com\)](#)

Lead developer

**January 2023 - July 2023**

A comprehensive e-commerce platform for a fictional lens supplier, providing opticians with an intuitive shopping experience. Designed and implemented a robust admin panel for efficient inventory management, order processing, and customer support.

- Comprehensive Inventory Management: Developed a robust inventory management system within the admin panel, allowing for accurate tracking and efficient management of product stock.
- Streamlined Order Processing: Designed an efficient admin panel that reduced order processing time by 30%, enhancing operational efficiency.
- User-Friendly Cart: Designed an intuitive shopping cart that streamlined the purchasing process, resulting in increased conversion rates.
- Technologies: HTML, CSS, JavaScript, PHP, MYSQL
